

Gone

Phlake

Somebody trickled under her skin
Pulled on her trigger, now where do we begin
I wanna blame it on the liquor
The smell of innocence
I didn't wanna trick her, I didn't understand

I could take a trip to Dubai, bye
I would love to be on your wi-fi
I'd be your bed sheik - at home
Not on a blank screen - alone

All alone, alone, alone
Long away-away from home
All alone, alone, alone, alone
You've been gone so long
All alone, alone, alone
Long away-away from home
Don't forget the way how you
Do you, do you

I heard the signal, calling my name
Shots had been fired, I couldn't stay
I wanna blame it on your ego
I tried to stay afloat
I wonder where we'd go
But we'll never know

I could daydream about yesterday
But you were the one that let me get away
Out in the ocean - alone
That's just the motion - I'm gone

All alone, alone, alone
Long away-away from home
All alone, alone, alone, alone
You've been gone so long
All alone, alone, alone
Long away-away from home
Don't forget the way how you
Do you, do you

All alone, alone, alone
Long away-away from home
All alone, alone, alone, alone
You've been gone so long
All alone, alone, alone
Long away-away from home
Don't forget the way how you
Do you, do you
