

Kerosene

Phlake

Kerosene cures my defeats
She's into my flaws
Gets my system spinning

I can tell, yeah, I can tell
You ain't shy, not as wild
But I can tell you know me well
So don't lie, I'll play nice
I can tell you resent hell
And I like your type (and for yourself)
Of the rail of carousels
Do you mind if I write?

Cha-chas-chasing me patiently
Like you're looking for some trouble, trouble
Gasoline, fantasies
Got you craving someone to spark, yeah
Don't you dare trust in me, you're kerosine
I'm just looking for some trouble, trouble
These gasoline fantasies
Got me craving another spark
You want to stay a few [?]

My name is Mads, I
I miss you dress up
Before we pissed up
I wanna die, baby
I'd be your chewing toy
You'd be my leopard
I wanna do it for you
I wanna die, baby
Don't you lie

Four o'clock, five o'clock
Pour it up quicker (tonight)
I wanna die, baby (tonight)
Drive home, [?] gasoline, liquor (tonight)
I wanna die, babe, do it, babe

Chasing me patiently
Like you're looking for some trouble, trouble
Gasoline, fantasies
Got you craving someone to spark, yeah
You want to stay a few [?], kerosene
I'm just looking for some trouble, trouble
These gasoline fantasies
Got me craving another spark, yeah

I'm chasing it
I want it, babe
I just say I (I just say I)
I want it, baby
I want it, babe
I just say I (I just say I)
I want it, babe
I want it, baby
I just say I (I just say I)

I want it, baby

Chasing me patiently
Like you're looking for some trouble, trouble
Gasoline, fantasies
Got you craving someone spark, yeah
Don't you dare trust in me, you're kerosine
I'm just looking for some trouble, trouble
These gasoline fantasies
Got me craving another spark, yeah
You want to stay a few [?], kerosene
I'm just looking for some trouble, trouble
These gasoline fantasies
Got me craving another spark, yeah
