If you wanna' dance for me  
Dance for me, Dance.  
If you wanna' L dance  
If you wanna lie for me  
Lie for me lie  
If you wanna run from me  
Run from me  
Go on for me  
Go on

Katjing ey  
Katjing eyy

Could have bought dali's (katjing it)  
Salvador mystique (I'm liquid)  
I'm melting so sonicly (and sticky)  
I'm going down peace no check (katjing ey)  
Danger strange as hell  
With tainted ranger cells  
In spaceships chasing wealth  
Patience, ring the bell  
You were false in love  
Could have lied could have lied  
You might die alone - turn the light, turn the light on

I don't promise no bleep (they blend it)  
Neon lights in my spin [?]  
Gotta rest in peace - I sing it  
See the fucking beamlight -katjing it

Danger straight as hell  
Glaciers kiss and tell  
Painters paint themselves  
Spaceships chasing wealth  
You were false in love  
Could have lied could have lied  
You might die alone - turn the light turn the light on

"If you wanna dance for me  
Dance for me dance  
If you wanna lie for me  
Llie for me, L lie.  
If you wanna run from me  
Rrun from me, run from me  
Go run for me, go run.  
Go on for me  
Go on"

It's my animated reality fix  
Don't count it all  
They only talk  
Better than medicine  
Through the cylinder filling asking for chalk  
Never talk  
Probably best table chasing the hell out of this  
Mad for more  
And sing a song for you

Show me the way that you got a victim  
All way through the money falls  
Above it all

We might die alone  
You might die alone  
We might die

If you wanna dance for me  
Dance for me dance  
If you wanna lie for me  
Lie for me lie  
If you wanna run from me  
Run from me  
Go on for me  
Go on

If you wanna dance for me  
Dance for me dance  
If you wanna lie for me  
Lie for me lie  
If you wanna run from me  
Run from me  
Go on for me  
Go on
