

# My Feature

Phlake

You mind if I  
Feature your life  
You mind if I  
Sneak in your mind  
Blind olive eyes  
Don't compromise  
Or apologize  
They hypnotize

Oh na  
You hit  
Bulls eye  
Don't slow down  
So now  
You on a poster  
I need your shoulder  
Next to my shoulder

You got me walking on lava  
I started feeling alive now  
We on our way to Nirvana  
We don't even got a visa  
All we get is just a teaser  
Do you wanna be my feature

My feature, my feature  
My feature, my feature  
My feature, my feature  
My feature, my feature

I cameoed  
Long time ago  
In someone's life  
One of a kind  
No lullabies  
Just stormy nights  
Fire so strong  
We burned it all

Oh na  
This roller coaster  
Has thrown us both off  
Right at the same time  
So now  
We on a poster  
I miss your shoulder  
Next to my shoulder

You got me walking on lava  
I started feeling alive now  
We on our way to Nirvana  
We don't even got a visa  
All we get is just a teaser  
Do you wanna be my feature

My feature, my feature  
My feature, my feature

My feature, my feature  
My feature, my feature

Let's go berserk  
Hands in the dirt  
Let's go berserk  
Go do the work  
Let's go berserk  
Hands in the dirt  
Let's go berserk  
Go do the work  
Let's go berserk
