

# Sleepwalker

Phlake

I blend in  
Like your friend  
You can't see  
How I feel  
I'm that guy  
You pass by  
We might say hi  
Then we slide

I got no name  
Lonely days in my apartment  
I don't go out until the sun is gone  
Born to hide in this city  
Zombie days in my apartment  
I don't go out until the sun is gone  
Born to hide in this city

I been out  
On a drive  
Longing for  
You and I  
I'm not the same  
A brand new guy  
My face has changed  
Vanilla Sky

I got no name  
Lonely days in my apartment  
I don't go out until the sun is gone  
Born to hide in this city  
Zombie days in my apartment  
I don't go out until the sun is gone  
Born to hide in this city

I come around  
Come around like a fool  
Deep down  
I think you love it too  
I come around come around like a fool  
Deep down  
Deep down I think you love it too  
I'm in town  
Baby I'm in the mood  
To come by  
I know you want me to  
I got plenty  
I got plenty of fuel  
Deep down  
Deep down I think you love it too

Bend our minds in status, steps and shooting stars  
We're misguided in a way you never seen before  
I been up for sixty hours still not feeling tired  
Now who is on my side?  
I guess I need to find  
Myself here

Deep down I think you want me to  
Lonely days in my apartment  
I don't go out until the sun is gone  
Born to hide in this city  
Deep down I think you love it too  
Zombie days in my apartment  
I don't go out until the sun is gone  
Born to hide in this city

I sleep walk  
On the walls  
Counting stars  
All over town  
Always up  
Insomnia  
Zombie walk  
Eyes never shut  
I sleep walk  
On the walls  
Counting stars  
All over town  
Always up  
Insomnia  
Zombie walk  
Eyes never shut  
See I don't ever wake up  
Cause I don't go to sleep no more  
It's why I quit my day job  
And why I never gave up  
I date so I can break up  
I break myself to wake up  
I finally found a way for  
My eyes to close for way more  
Than minutes  
I finally found a way
