

URL'swhere

Phlake

We keep going straight to nowhere
If we go to waste who would care?

Practically I'm out of my mind
I'm still going straight to nowhere
If you ever come around
I hope I get to see you there

And I know that we've been here before
But now we're on a different floor
I don't recognize you anymore
But I think I like the new you more

I was in a bad dream when we started
URL'swhere in this universe
I hope that
We can pick it up just where we parted
URL'swhere in this beautiful
Web we made
I wish I could go back where we started

We keep going straight to nowhere
If we go to waste who would care?

I can't seem to find you're page anymore
When I need a taste of before

And I know that we've been here before
But now we're on a different floor
I don't recognize you any more
But I think I like the new you more

I was in a bad dream when we started
URL'swhere in this universe
I hope that
We can pick it up just where we parted
URL'swhere in this beautiful
Web we made
I wish I could go back where we started
URL'swhere and I'm terrified
We don't know
How to pick it up right where we started
URL'swhere in this beautiful
Web we hate
Can we pick it up right where we started

If you jump up on my shoulders
(Rodeo-oh)
Stay as long as you like
(While I stand on my toes)
Please just don't lose ur focus
(Slowly we grow)
We can make it if we try

Cause I know that we've been here before
And we opened up so many doors
Now I recognize you more and more

I would love to stay here on this floor

I was in a bad dream when we started

URL'swhere in this universe

I hope that

We can pick it up just where we parted

URL'swhere in this beautiful

Web we made

I wish I could go back where we started

I wish I could go back where we started

Can we pick it up right where we started
