

High

Phoebe Green

I watch the sunrise, your eyes everytime that you smile
And my heart feels numb for the first time in a while
'Cause this can't last forever
Beauty fades, perfection dies

You're like a gentle breeze, long battles and cherry blossom trees
I got trapped in the branches, all my leaves glistening
You're all I can taste
Baby you're in my veins

I got lost in the smoke of your high and I don't wanna come down
I don't wanna lose this feeling you give me
It'll kill us when our feet touch the ground

Your skin on mine is a lifeline
Baby stay with me if you got the time
Let me feel like I'm yours, let me feel adored

The mascara stains on your shoulder blades
Yeah, life was never meant to be fair
Darlin' hold on to my hands, squeeze so tight it breaks out
I wouldn't care

I got lost in the smoke of your high and I don't wanna come down
I don't wanna lose this feeling you give me
It'll kill us when our feet touch the ground

Oh I know
That we're still young but I taste forever on your tongue
I don't wanna feel like this with anyone else
They don't know me like you do
Please don't cry you make me feel alive

I got lost in the smoke of your high and I don't wanna come down
I don't wanna lose this feeling you give me
It'll kill us when our feet touch the ground
