

## IV

Phoebe Green

I will meet you incomplete  
And I will take what I need  
Straight to the veins through an IV  
Then you will see the back of me

But I'm not done yet  
It isn't over til I get  
Overwhelmed overcome oversaturated  
Too full on, turning numb don't think I'll make it

Baby decompose for me  
Thought you were supposed to be  
My life or death, my in between  
An innocent confusing dream

But I'm not done yet  
It isn't over til I get  
Overwhelmed overcome oversaturated  
Too full on, turning numb don't think I'll make it

You could be the end of me  
You could be the end of me  
You could be the end of me
