

Tell me all about yourself  
I need to feed off someone else  
Soak it up, internalize  
Talk about your 9 to 5

Eat your words and drink your movements  
Say something good so I can use it  
I'll stay empty so I can consume  
The life that I'll suck out of you

I'm such a leach  
You're making it easy  
I'm such a leach  
You're making it easy  
I promise you won't feel a thing  
But I'll leave you bleeding

Fill me up and close my mouth  
I don't remember what we talked about  
Dizzy as I try to digest  
Whatever meaningless phrases I'm fed

Eat your words and drink your movements  
Say something good so I can use it  
I'll stay empty so I can consume  
The life that I'll suck out of you

I'm such a leach  
You're making it easy  
I'm such a leach  
You're making it easy  
I promise you won't feel a thing  
But I'll leave you bleeding

Fill the silence  
Fill my head  
Bleed you 'til there's nothing left  
Fill the silence  
Fill my head  
Bleed you 'til there's nothing left  
Fill the silence  
Fill my head  
Bleed you 'til there's nothing left  
Fill the silence  
Fill my head  
Bleed you 'til there's nothing left  
Fill the silence  
Fill my head  
Bleed you 'til there's nothing left
