

Aspirin

Phoebe Ryan

You got the hunger
I am your sucker
You aim for my heart like a hunter
And pray, baby pray, baby pray

I follow your tempo
Wearing the blindfold
Made my way straight to your temple
And pray, baby pray, baby pray

My phone is full of fuckin' photos
You and me doing things
People shouldn't ever know, no
You keep me company
Show up naked at your front door
All I can do is just give and give and give

Cause your love is massive
It's got me gaspin'
Want you to do me some damage
After we're done give me aspirin
Baby, imagine
Your love is magic
Get what you want without asking
After we're done give me aspirin

How do you measure
Pain over pleasure
Take it and inch and go further into an adventure
Play baby play

My phone is full of fuckin' photos
You and me doing things
People shouldn't ever know, no
You keep me company
Show up naked at your front door
All I can do is just give and give and give

Cause your love is massive
It's got me gaspin'
Want you to do me some damage
After we're done give me aspirin
Baby, imagine
Your love is magic
Get what you want without asking
After we're done give me aspirin

Comin' at you like it's Hammer Time, so divine
Kick it with you like a chorus line, I need a rhyme
Slam it like it's poetry, I fuck with you, you fuck with me

Cause your love is massive
It's got me gaspin'
Want you to do me some damage
After we're done give me aspirin
Cause your love is massive
It's got me gaspin'

Want you to do me some damage
After we're done give me aspirin
Baby, imagine
Your love is magic
Get what you want without asking
After we're done give me aspirin
