Chronic

Phoebe Ryan

Best believe you couldn't cure me if you tried
Sweet relief cause I like doing what I like
Constantly I suffer from my sorry lies
It's killing me cause I know you love me right

You know what to say
You know what to do
You know how to play
You know, you know

Ooo so wonderful
Kisses tasting like chronic
Give me some cause I want it
Like all the time and
Ooo it hits me good
Yeah, it's keeping me breathing
Chasing after the feeling
Like all the time

Your chronic, I got it
On my mind
Your chronic, I want it
Like all the time

What's the deal? You only treat me like a queen
It's so surreal, I've always been a little mean
I can feel my heart bursting at the seams
It's my greatest fear, loving anyone, anything

You know what to say
You know what to do
You know how to play
You know, you know

Ooo so wonderful
Kisses tasting like chronic
Give me some cause I want it
Like all the time and
Ooo it hits me good
Yeah, it's keeping me breathing
Chasing after the feeling
Like all the time

Your chronic, I got it
On my mind
Your chronic, I want it
Like all the time

Your kisses taste like chronic
It's got me lowkey heart sick
I'm trying to be modest
But you know I want it

Ooo so wonderful
Kisses tasting like chronic
Give me some cause I want it
Like all the time and

Ooo it hits me good
Yeah, it's keeping me breathing
Chasing after the feeling
Like all the time

Your chronic, I got it
On my mind
Your chronic, I want it
Like all the time
Your chronic, I got it
On my mind
Your chronic, I want it
Like all the time
