

When the sun falls down, and
There's no more sound, when
You're no longer around and I lose my faith
When the stars come out, and
The thoughts surround me
By the time you leave this town, it'll be too late

Who's gonna hold my hair back?
Who's gonna help me fight the pain?
Who do I call when I fall,
Into something I can't escape?

What am I supposed to do?
What am I supposed to do,
In case I miss you?
What am I supposed to do?
What am I supposed to do,
In case I miss you?
What do I do when my train is off-track
Get it through my head, you're not gonna come back
What am I supposed to do?
What am I supposed to do,
In case I miss you?
I miss you now

When the moon don't shine no more
And the storm comes rolling in
You leave and I lose my faith again
When the rain starts pouring down
And our memories wash away
I'm frozen now, I know it's too late

Who's gonna hold my hair back?
Who's gonna help me fight the pain?
Who do I call when I fall,
Into something I can't escape?

What am I supposed to do?
What am I supposed to do,
In case I miss you?
What am I supposed to do?
What am I supposed to do,
In case I miss you?
What do I do when my train is off-track
Get it through my head, you're not gonna come back
What am I supposed to do?
What am I supposed to do,
In case I miss you?
I miss you now

Because I miss you
I miss you now
Because I miss you
I miss you right now
Yeah, I miss you
I miss you now
I miss you

Please, tell me

What am I supposed to do?

What am I supposed to do,

In case I miss you?

What am I supposed to do?

What am I supposed to do,

In case I miss you?

What do I do when my train is off-track

Get it through my head, you're not gonna come back

What am I supposed to do?

What am I supposed to do,

In case I miss you?

I miss you now

Because I miss you

I miss you now

Because I miss you

I miss you right now

Yeah, I miss you

I miss you now

I miss you

I miss you now
