

Middle Finger

Phoebe Ryan

What I offer is something rare
If your heart's changing, then that's not fair
You might hate this, but I don't care
I don't care
I'm acting up, 'cause you don't listen to me

What I give you is something real
I thought that my heart was yours to steal
You're so absent
Like what's the deal?
Hopefully you're acting up 'cause you can't live without me

When it comes through
I see it always leads to one thing
But I need something more than your time
Yeah, I love me some love and affection
I'm so tired of being stressed and polite

I don't wanna waste another moment with us apart
Baby, this should be simple
Loving me is not that hard
You're always on my agenda
You've been on it from the start
But when you act like it's nothing
It's a middle finger to my heart

I think it's crazy, I know this is wrong
But I can't stop you from doing what you want

You're so amazing
Before you're gone, just tell me
Are you coming back to us eventually?

When it comes through
I see it always leads to one thing
But I need something more than your time
Yeah, I love me some love and affection
I'm so tired of being stressed and polite

I don't wanna waste another moment with us apart
Baby, this should be simple
Loving me's not that hard
You're always on my agenda
You've been on it from the start
But when you act like it's nothing
It's a middle finger to my heart
It's a middle finger to my
Middle finger to my heart
Middle finger to my heart (when you act like it's nothing)
Middle finger to my heart (it's a middle finger to my)
Middle finger to my heart (it's a middle finger to my)

My heart is in your hands for a reason
Don't act like it's nothing
I'm giving you my all but you don't see it
You act like it's nothing
Still-

I don't wanna waste another moment with us apart
Baby, this should be simple
Loving me is not that hard
You're always on my agenda
You've been on it from the start
But when you act like it's nothing
I don't wanna waste another moment with us apart
Baby, this should be simple
Loving me is not that hard
You're always on my agenda
You've been on it from the start
But when you act like it's nothing
It's a middle finger to my heart
It's a middle finger to my
Middle finger to my heart
Middle finger to my heart (when you act like it's nothing)
Middle finger to my heart (it's a middle finger to my)
Middle finger to my heart (it's a middle finger to my)
