

# See Myself

Phoebe Ryan

I remember when  
Me, myself and I were my best friends  
I wish I was a kid again  
Way back then I wasn't so busy stressing about who I am  
Cause honestly  
My reflection doesn't look like me  
I wish that I could see myself  
The way my friends do  
The way I want to

I tried to take a photograph but it's not the same  
Cause all I see is someone frozen in second place  
My friends think I'm a winner but I can't relate  
I'm always climbing up a hill in the roller skates

Wish I could see myself through the eyes of someone else  
Wish I could see myself  
Wish I could see myself through the eyes of someone else  
Wish I could see myself

I remember when love was all we had  
How'd it get so bad? You can't get out of bed  
I wanna lift you up, you've always been enough  
I know it's hard to see yourself the way I do

But I'ma take a photograph of you anyway  
Cause all I see is someone that I can never replace  
And I think you're a winner but you can't relate  
We're always climbing up a hill in the roller skates

Wish I could see myself through the eyes of someone else  
Wish I could see myself (wish I could see myself)  
Wish I could see myself through the eyes of someone else  
Wish I could see myself  
Wish I could see myself through the eyes of someone else  
Wish I could see myself (wish I could see myself)  
Wish I could see myself through the eyes of someone else  
Wish I could see myself

I wish that I could see myself  
The way my friends do  
The way I want to  
I wish that I could see myself  
The way my friends do  
The way I see you

Wish I could see myself through the eyes of someone else  
Wish I could see myself  
Wish I could see myself through the eyes of someone else  
Wish I could see myself (through the eyes, through the eyes)  
Wish I could see myself through the eyes of someone else  
Wish I could see myself  
Wish I could see myself through the eyes of someone else  
Wish I could see myself
