

Talk To Me

Phoebe Ryan

What do you do with the feelings you have?
You bottle them up, so pour me a glass
I already know whatever we had
Could go up in smoke, now I want a drag
Tell me your thoughts, I'm willin' to bet
It already got as good as it gets
I need you to talk, am I makin' it clear?
Even if it's not what I wanna hear

I want you to talk to me
Lay it all out on the table
Just talk to me
That's what we got all this space for

Come sit down and talk to me
But don't say nothin' you don't mean
I wanna know what's on your mind
Even if it hurts that's fine
I let you lie for way too long
The truth what I been waitin' on
I wanna know what's on your mind
Even if it hurts that's fine
Just talk to me, mm
I want you to talk to me

Now what will I do with all of the pain?
I could keep pushin' through or push you away
Just gimme the choice, you don't understand
'Cause you're just a boy and I need a man

Talk to me
Lay it all out on the table
Just talk to me
That's what we got all this space for

Come sit down and talk to me
But don't say nothin' you don't mean
I wanna know what's on your mind
Even if it hurts that's fine
I let you lie for way too long
The truth what I been waitin' on
I wanna know what's on your mind
Even if it hurts that's fine
Just talk to me, mm
I want you to talk to me
T-t-t-talk to me, talk to me
Talk to me, ba ba ba, la la la
I want you to talk to me, yeah, yeah

Come sit down and talk to me
But don't say nothin' you don't mean
I wanna know what's on your mind (I wanna know what's on your mind)
Even if it hurts that's fine (Even if it hurts that's fine)

I let you lie for way too long (Oops)
The truth what I been waitin' on (I-I-I-I)
I wanna know what's on your mind (I wanna know what's on your mind)

Even if it hurts that's fine
Even if it hurts just talk to me
