

Ride The Elevator

Phoebe Snow

He's got front wheel drive, lots of money, but he don't scare me
He's the trigger, I'm the gun--he just does not scare me
Chorus: man, you know he's so uptown, I'm so earthbound
He says "ride the elevator! do it now or do it later"
How far we fall when we get off the wall, and
We ride the elevator
Schoolgirl annie says he's uncanny but he don't scare me
She throws rose petals, he shows his medals, but he don't scare me
Repeat chorus
He is just a comedian and he don't scare me
He can squeeze a woman like a milk-fed hen but he don't scare me
Repeat chorus
