

Ride The Elevator

Phoebe Snow

He's got front wheel drive, lots of money, but he don't scare me

He's the trigger, I'm the gun--he just does not scare me

Chorus: man, you know he's so uptown, I'm so earthbound

He says "ride the elevator! do it now or do it later"

How far we fall when we get off the wall, and

We ride the elevator

Schoolgirl annie says he's uncanny but he don't scare me

She throws rose petals, he shows his medals, but he don't scare me

Repeat chorus

He is just a comedian and he don't scare me

He can squeeze a woman like a milk-

fed hen but he don't scare me

Repeat chorus
