

Black Art

Phoenix Effect

The wicked don't go waving flags
Like they felt, a need to make amends
Read the price tags
For answers, they can comprehend

Write me up for a lesson learned
When nothing is quite what it seems
N' I cannot stop before I'm burned

How does all black become your heart
As seen in the light of yourself
Inside yourself
How does all black become your art

Benevolence my middle name
Violence, hiding in my past
My misguided shame
To see my, see my die recast

Write me down in history
Where nothing is quite what it seems
Martyr me, I'll never turn

How does all black become your heart
As seen in light of yourself
(Do you crash and burn)
Inside yourself
How does all black become your art

Peace of mind
Crystallized motions
Peace of mind
Save me from the fall
Peace of mind
Fragile hallucination
Peace of mind
Self deception is all
