

Nevermind

Phoneboy

You got me shakin' at my bed posts
West coast
Devil in a red dress
X O
And I know you'll never be mine
The cycle callin' my line

Slippin' on your gray vans
Old soles
Tinted with a spray tan
Oh no
And I know I'll have to decline
A cycle broke in my mind

She keeps me comin'
All the time
I pulled this trigger
And hit your line
She keeps me comin'
All the time
I want Nirvana
But Nevermind

Drunk texts keep me sober
Hope it's not all over

It's lookin' like a dead night
Lets go
Runnin' through the red lights
Hell no
And I know you're not worth my time
A cycle broke in my mind

She keeps me comin'
All the time
I pulled this trigger
And hit your line
She keeps me comin'
All the time
I want Nirvana
But Nevermi-

You say that you miss me but
I text and I call and you won't pick up
It sent and delivered like what the fuck
Don't leave me on read like a solo cup
You say that you miss me but I'm still gone
You text and you call but my phone's not on
I need CPR please call 911
Defibrillate all of my faded flaws
Oh-oh

Drunk texts keep me sober
Hope it's not all over
Ripping out the throttle
Sipping empty bottles
Drunk texts keep me sober

Hope it's not all over
Now
Now

She keeps me comin'
All the time
I pulled this trigger
And hit your line
She keeps me comin'
All the time
I want Nirvana
But Nevermind

Drunk texts keep me sober
Hope it's not all over
Now
