

love just died.

Phony Ppl

Yeah

I know a problem
When I see a problem
And I know a good thing
When I feel a good thing
Every relationship has problems, yes, I know
Most of them no one notice 'til someone explodes
Guilty I be and addicted to you
I tried so hard to keep us alive, but love just died

Love just died again
Tell a friend, tell a friend
Love just died again
Love just died again
Tell a friend, tell a friend
That love just died again

Now that I mentioned it, it's time to let you know
Though you killed love, I don't take it personal
Guilty I be and addicted to you
I tried too hard to keep us alive, but love just died

Love we made
It makes me wanna grab the phone and give you a ring
Deep down inside, I know you're no good for me
But I can't help but wonder how things could be
Shit, every time I think about the love we made
It makes me wanna grab the phone and give you a ring
Deep down inside, I know you're no good for me (But I)
But I can't help but wonder how things could be
Every time I think about the love we made
It makes me wanna grab the phone and give you a ring
Deep down inside, I know you're no good for me (But I)
But I can't help but wonder how things could be
