

One Man Band.

Phony Ppl

Hey there what's your name?
We seem to be going the same way
So do you wanna join my one man band?
Do you wanna join me?
Cause don't nobody seem to understand
And they all are kinda noisy

Tell me where you've been
Since the time I realized
It looks good from the outside
Show me the state of mind
Do you wanna join my one man band?
Do you wanna join me?
Cause don't nobody seem to understand
And they all are kinda noisy

All I have is my heart in my hand
So do you wanna join me?
Do you wanna join my one man band?
Do you wanna join me?

Hey there what's your name?
Once again it slipped my mind
Da da da
Only if you have the time
Do you wanna join my one man band?
Do you wanna join me?
Don't nobody seem to understand
They all are kinda noisy

Do you wanna join my one man band?
Do you wanna join me?
Cause all I have is my heart in my hand
Do you wanna join me?
