

Special One. (Interlude)

Phony Ppl

Wake up and I greet the sun
Feel like this is gonna be my special one
My idea of fun
To be at the right place at the right time
Crucify the lies
Then you realize
Being alive is something

Wake up and I greet the sun
Feel like this is gonna be my special one
My idea of fun
To be at the right place at the right time
Celestial surprise
Before your eyes
Impossible is nothing
