take it easy.

Phony Ppl

With my back on the wall
She grabbed my arm and says it's her song
Pulling me out
To the dance floor
Just to try (Just to try)
To try
To get me to dance (Get me to dance)
I ain't had enough, no, not yet
The night is still young, I digress
I pull back to the wall (Back to the wall)
And laugh it off
She didn't know
What it takes to get me to dance (Get me to dance)

Hold your horses, babe
We gon' get there in a minute
You know I wanna go all the way
I told you this from the beginning, ah (Slow down)
Just take it easy

Slur my speech as we speak
Watching my waistline to the beat
Getting ideas
I hope you wouldn't mind trying
Take my hand, let's try again
I think I'm ready to dance
(Ready to dance, ready to dance, ready to dance)
Hard to believe you cracked the code (You cracked the code)
But my body is moving on its own
The rhythm's contagious
Out on the dance floor (On the dance floor)
I don't think she knows she did the impossible
And got me to dance (Got me to dance)
And I need to dance

Hold your horses, babe
We gon' get there in a minute
You know I wanna go all the way
I told you this from the beginning, ah (Slow down)
Just take it easy, ooh
Hold your horses, babe
We gon' get there in a minute
You know I wanna go all the way
I told you this from the beginning, ah (Slow down)
Just take it easy
