

try.

Phony Ppl

Takin' it easy
No pressure on the outcome, you can act freely
But you takin' your time, not makin' it easy
You talkin' your shit, you know how to tease me

Let's see where this goes
If I come through with it
What you gon' do with it?
We'll see where this goes
If I come through with it
Need you to stay up, baby

We don't have to try (We don't have to try)
We don't have to try
I feel so alive (I feel so alive)
Put your hand in mine
When I feel your vibe (When I feel your vibe)
I feel so alive
We don't have to try

Would you front on me
If I popped that bubbly?
Came to the crib and sat on the couch
All comfortably, are you wantin' me?
A couple drinks in, you chillin' or leavin'?
Stayin' 'til tomorrow? We'll call it an evening
Or none of the above, you spendin' the weekend?
I'm cool with it all, it just depends
On who you want me to be
Well, baby, I'm shy, too, stop runnin' from me
'Cause I could fuck it up like what I done to the beat
And in a crowded room of people, no one would think
'Cause I keep it discreet, it'll stay on the low
I mean, no one would know unless you wanted to
And if you kindly decline, then I wouldn't mind
'Cause it's nothing to me, but what you wantin' is me, ah

We don't have to try (We don't have to try)
We don't have to try
I feel so alive (I feel so alive)
Put your hand in mine
When I feel your vibe (When I feel your vibe)
I feel so alive
We don't have to try
