

## Way Too Far.

Phony Ppl

Wakin' out my sleep  
It's like someone is there  
'Cause this reflection can't be me  
But I chauffeured myself here  
'Cause

My walk and my talk been different  
My style and my thoughts been different  
I got you but it's me I'm missin'  
You'll agree, you'll get it  
I think I went way too far tryna please you  
I know I went way too hard tryna please you  
And sanctions come with the harsh truth  
And you gon' shoot your shot 'cause I armed you  
But I'll be honest always towards you  
I think I went went way too far

When the option's up to me  
I do what I think you wanna see  
Ten times out of ten  
I'll make the same decision again  
The aroma of you, girl, makes my obligation start to fade  
Just to keep you close  
I watch myself drift further just the same 'cause

My walk and my talk been different  
My style and my thoughts been different  
I got you but it's me I'm missin'  
You'll agree, you'll get it  
I think I went way too far tryna please you  
I know I went way too hard tryna please you  
And sanctions come with the harsh truth  
And you gon' shoot your shot 'cause I armed you  
But I'll be honest always towards you  
I think I went went too far

My reflection yells at me  
Reprimanding turbulent demands  
Based off pure instinct  
That I may just not know who I am  
Every time I'm by myself  
I wonder why I can't help but misbehave  
Just to keep you close  
I watch myself drift further just the same 'cause (ooh...)

You'll agree, you'll get it  
I think I went way too far tryna please you
