

Autumn

Phora

I don't understand it
Why the fuck we fall in love
Why the hell we lose ourselves in the mist of it all
I don't understand it so
I don't understand it
How I ended up with you
I couldn't see myself with no one else
So I fell in love with you
You made me feel like
It was more than just one night
I wanna make things alright
I wanna make you feel alright
You made it feel like
It was only you and me
They couldn't see the things we see
And that's why

Oh, no, no, no, I don't want no one else
I just wanna keep you to my, keep you to myself
Oh, no, no, no, I don't want no one else
That's why, that's why, why

Yeah, lately you feel so distant
Been alone a few times in my life
But I really have to say this time feels different
I miss it, having you by my side
Through the highs and the lows that I deal with
So I just deal with these problems alone
I've been all in my head, shit, I'm trippin', I mean

I wanna fix your heart, I wanna heal your pain
Too scared to show my scars, I know you feel the same
Take all these painful thoughts and let 'em wash away
Take all these painful thoughts and let 'em wash away

I got you on my mind still
Write about you in these lines still
Lately I don't talk about how I feel
'Cause truth is only time heals
Said I got you on my mind still
Write about you in these lines still
Lately I don't talk about how I feel
'Cause truth is only time heals

I don't understand it
Why the fuck we fall in love
Why the hell we lose ourselves in the mist of it all
I don't understand it so
I don't understand it
How I ended up with you
I couldn't see myself with no one else
So I fell in love with you
You made me feel like
It was more than just one night
I wanna make things alright
I wanna make you feel alright
You made it feel like

It was only you and me
They couldn't see the things we see
And that's why

Oh, no, no, no, I don't want no one else
I just wanna keep you to my, keep you to myself
Oh, no, no, no, I don't want no one else
That's why, that's why, why
