

## Before It's Over Pt. 2

Phora

Visions of me and my peeps at the top  
Nothing came easy, we needed a plot  
And they said they'd doubt we'd ever make it  
But thats the very same reason we fought  
So close to giving up on life, I wanted to quit  
Like why keep going if they don't know you exist?  
But the fans helped me down like no other  
So I hope that you get everything that you ever dreamed of  
Cause I know it's a bitch  
Yeah, this thing we call life  
But y'all are helping me make it through  
All I dream of is my music doing the same for you  
But tell me, wheres God when you need him?  
Why does it only feel like the Devil is present  
When my mind is tempted by my demons  
Shit, I guess this is all a part of his plan  
But it's hard to keep my faith when everyone says that you hardly a man  
Even though you taking care of your fam  
Even though you put all your dreams on the line  
And gave them all that you can  
I give my life for them, would they do the same for me?  
It got me thinkin if the shit they said was make believe  
Cause it just seems like all they ever do is take and leave  
And leave me in the dust, without a place to be  
People lookin' in from the outside, they don't know what you feelin'  
My worlds caving in, I'm suffocating, crushed by the ceiling, the walls are  
closing in  
And 4 years back, if you asked anyone about Marco they just say I lost hope  
in him  
Well i ain't even have hope in myself  
And they keep saying they feel me, but they don't know how I felt  
When I was on the ground dying, screaming just for someone to help  
But no one came, I had to comfort myself  
Going through a pain, I just couldn't take  
I might much rather die, it gets to me everytime  
I ain't even tell my mother goodbye  
These niggas try to kill me, like really these niggas tried  
So it must mean that there's a reason I'm breathing and still alive  
And I dont want revenge  
I want the niggas to see me thrive and live my dreams and watch me change th  
e world  
And one day realize that they can do it too  
They just need someone to open their eyes  
Cause I ain't got no hate In my heart for not one of these guys  
Cause all these cats wanna be gangsta, and I just wanna be me  
Just wanna be free from the world and shit thats all on tv  
Seems like I'm dodging all my incoming calls, ain't replying to texts  
Man Im just tryna get away from it all  
And Moms deserves a new house, but I just can't afford it  
Feel like I got the perfect song but I just can't record it  
If this was my last song, how long would it last?  
See, I know I've fucked up but now thats all in the past  
Cause everything could be gone in a flash  
So watch me pave the way and have a team of leaders follow my path  
And I bet my teachers couldn't name a day they saw me in class  
Fuck around, and have me speak to your students, watch all of them pass  
You ain't succeed till you fall on your ass

Cause shit, we fell way too many times to count, now all of us laugh  
But they say men cry too  
Every teardrop from my eye, I ask myself, what have you done good for beside  
s you?  
Im still a kid so I still make mistakes  
I just wanna live, before the good times fade away now  
Before the good times fade away now

And where is everyone I used call my friend?  
I've been so lost inside myself, I guess I lost my touch within'  
I mean, I don't blame them, I got too much on my mind  
Trust issues from the past, but I wish I could press rewind  
And take it all back  
Fuck rap, fuck the media, fuck the news, the internet, and all these fuckin'  
lies they feeding ya'  
Fuck apologies, cause everything I did, it happened for a purpose  
And fuck em if they ever said you worthless  
So, fuck my anxiety, fuck my depression  
I just can't figure out the reason why the fuck I've been stressin'  
And fuck trying to love someone who just dont seem to love you back  
Cause we all deserve someone to be there when we feel trapped  
Or lost and confused, we all got something to prove  
But I just can't stand the thought of losing someone like you  
Fuck stressing on the people that put you down for no reason  
Fuck the ones who said they didn't believe in everything that you said you w  
ould do  
And now that its done, they start to come running  
Fuck drinking to the point that you feel nothing  
Fuck the rumors, fuck the gossip, dog, fuck they assumptions  
Fuck the ones that said they had your back when they knew they was frontin  
And fuck every doubt that they had against you  
They was clowin on you, you thought they was clowin with you  
But it's all good  
Shit, I guess it's all a part of his plan  
Cause everything they said I'd never be, is all that I am  
Yours Truly

Dear lord, please bless us with the strength to make it through these hard t  
imes and when we can't find our way, please let your light be our guidance,  
and if anyone shall be looking down on another person may, they only be our  
loved ones looking down on us from the heavens and may you bless us with the  
courage to be ourselves rather than fool ourselves the start of a new legac  
y, in Jesus name I pray, Amen
