

# Blame On Me

Phora

I been trying to find my way back to you  
I'll never talk with my back to you  
After all these feelings I've had for you  
All these feelings I've had for you (Uh)  
I feel like everything changed now  
Nothing's ever the same now  
Did you wrong and you stayed down  
Know I did you wrong and you stayed-uh

But you can go ahead and put the blame on me  
Never thought you would go and change on me  
If you was here forever, why you fade on me?  
I'm still down, I'm still down  
But you can go ahead and put the blame on me  
Never thought you would go and change on me  
If you was here forever, why you fade on me?  
I'm still down, I'm still down

Yeah, look  
I hate keepin' my distance, hidin' my love  
I know I'm tripping, I'm thinking 'bout what it was  
Yeah, through the pain and the struggle is only us  
We both needed somebody who we can trust  
Yeah, I hope forever never ends  
'Cause I don't wanna be the reason that you never love again, look  
You said you done, you say, "Shame on me,"  
But you can go and put the blame on me

But you can go ahead and put the blame on me  
Never thought you would go and change on me  
If you was here forever, why you fade on me?  
I'm still down, I'm still down  
But you can go ahead and put the blame on me  
Never thought you would go and change on me  
If you was here forever, why you fade on me?  
I'm still down, I'm still down
