

# Come Thru

Phora

Yeah, baby girl, come thru  
I'm tryna see what's up with you  
You can be the one, don't mind being stuck with you  
You can fly away, just might fall in love with you  
Just might fall in love with you  
Baby girl, come thru  
I'm tryna see what's up with you  
You can be the one, don't mind being stuck with you  
You can fly away, just might fall in love with you  
Just might fall in love with you

Yeah, I never met a girl like you  
Ain't nobody in this world like you  
I ain't never seen nobody else shine like diamond or a pearl like you (uh)  
I just wanna love you down (aye)  
I just wanna make you smile (yeah)  
I just wanna make you laugh  
Wanna make you cum  
Wanna make you proud (aye)  
I just been too scared to open up  
I push away if I'm close enough  
Both of us broken and both of us scared  
But I'm letting you know you're the only one  
I would never break my promise  
I ain't felt love in the longest  
Look, I just can't move too fast  
Still numb from the past just got to be honest (yeah)  
So many feelings I never show  
You got me thinking I'm ready tho  
You got me thinking about you like twenty-four seven  
Just don't ever let me go (uh)  
Momma taught me never follow trends, just follow hearts  
So Ima make sure that you fall in love and never fall apart  
Look

Baby girl, come thru  
I'm tryna see what's up with you  
You can be the one, don't mind being stuck with you  
You can fly away, just might fall in love with you  
Just might fall in love with you  
Baby girl, come thru  
I'm tryna see what's up with you  
You can be the one, don't mind being stuck with you  
You can fly away, just might fall in love with you  
Just might fall in love with you

Yeah, I don't want to love too soon  
I don't wanna trust too fast  
I just wanna put you first  
I just wanna make this last  
Look, I don't want to love too soon  
I don't wanna trust too fast  
I just wanna put you first  
Baby, we can make this last
