

Fall In Love With Her Tonight

Phora

(I've been, I've been, trying to find a ghost inside my, strange things I've seen)

Trying to fall in love with her tonight

(I've been, I've been, trying to find a ghost inside my)

Strange things I've seen

(Strange things I've seen)

Trying to fall in love with her tonight

(Trying to fall in love with her tonight)

Look, wherever you go

No matter how close or far away

I know all that you want, all that you want

Is love and faith

Ohh and my soul is here with you tonight

Let's go to the stars

I'm ready for you tonight

I've been alone in my head

I've been distracted

You said you wanna to go all the way

I wanna go past it

I'll take you straight to the stars

And all of the planets

Cause girl you've been all in my head

And I'm so...

(I've been, I've been, trying to find a ghost inside my, strange things I've seen)

Trying to fall in love with her tonight

(I've been, I've been, trying to find a ghost inside my)

Strange things I've seen

(Strange things I've seen)

Trying to fall in love with her tonight

(Trying to fall in love with her tonight)

Yeah, they say if you look for love

Then you looking for ghosts

But you know I love you the most

Told me to cut my heart out

Throw it in the river

See if it floats

And if it does there's nothing inside

I know I'm stubborn when it comes to my pride

All this pain, all the times that I've cried

But that's the only way to know I'm alive

Look, I know that they talk

I know what they say

But they'll never break what we got

Cause it's ours

I'll always be here to fight off your tears

Protecting your heart, we aim for the stars

Listen, cause I know that you the only one that truly understands

I wanna show you what the moon is like
Baby take my hand

Look, wherever you go
No matter how close or far away
I know all that you want, all that you want
Is love and faith

Ohh and my soul is here with you tonight
Let's go to the stars
I'm ready for you tonight

(I've been, I've been, trying to find a ghost inside my, strange things I've
seen)
Trying to fall in love with her tonight
