

If Forever Exist

Phora

You

Yeah

The way you look at me, it's so hard to look at you back
Medusa with the eyes, you turn me stone, I get attached
Your beauty can't be duplicated, beauty can't be matched
My soul and heart is yours to keep, can never be detached
I wanna stay up with you so you don't wonder where I've been
Wanna wake up to you cookin' eggs and stirrin' ramen
I wanna show you how much I can care for you, I promise
The world is crashin' down but I feel like it's perfect timin'
(You)

For me to show you that I'm there for you
If flowers weren't oxygen then I can be that air for you
Wanna keep you safe from this whole world, I know it's terrible
But then again, I want the world to be there when I marry you,
like

Life is but a dream, let's get away and float
On the clouds in the sky, pick a place to go
Baby, we can be in Turks and Caicos on a boat
Or I can take you to an island that nobody knows, ayy
Let's travel the world, see a thousand beaches
You too beautiful to hide, I'll never keep you secret
I just wanna be there for you when you feel defeated
I just wanna lift you up anytime you need it
And make sure that you don't feel alone
I wanna fall in love in Paris and get married in Rome
I wanna let you know I love you and you where I belong
In the night while you're asleep, I'll put it all in a song
But you should come through
We could chill and drink '42
We can forget about the past and all the pain that we knew
I got a spaceship to moon, and it's perfect for two
And if forever does exist, then please, let it be you (You)
Yeah

My ride or die, my soulmate, my twin flame
Put you in a Benz, we could switch lanes
Just wanted you to know that I'm all yours
If I let you go, I'd be insane
My ride or die, my soulmate, my twin flame
Put you in a Benz, we could switch lanes
Just wanted you to know that I'm all yours
If I let you go, I'd be insane
