

# In Loving Memory

Phora

Every day that I see the sunshine up in the sky  
You running through my mind  
And I'm wondering why, why  
Why the devil didn't take me life  
Why the devil didn't take me life  
Every day that I see the sunshine up in the sky  
You running through my mind  
And I'm wondering why, why  
Why the devil didn't take my life  
Why the devil didn't take my life, life

Like what I do so good and I swore I felt like praying  
It didn't do no good as the devil laughed  
And when you passed  
I could of sworn I seen an angel  
Running through your hood  
Every since then I'm praying every day  
That my feeling so stressed  
I need to get away will it ever stop?  
Will it ever change?  
Probably not but I'm still praying for better days  
But I can't sleep I hear your laughing at night  
And I'll give everything in my life  
To have you back I'll give it all up  
Girls money and fame  
Because without you ain't nothing the same  
Its sad to say it don't work like that  
And you'd probably be proud of me  
If you heard my raps  
Its had to live hard to laugh and smile without you every now and then  
I think of you and right and wrong

Every day that I see the sunshine up in the sky  
You running through my mind  
And I'm wondering why, why  
Why the devil didn't take me life  
Why the devil didn't take me life  
Every day that I see the sunshine up in the sky  
You running through my mind  
And I'm wondering why, why  
Why the devil didn't take my life  
Why the devil didn't take my life, life

I reminisce on the days  
We were running from the police  
Tagging on the bus late nights on these cold streets  
When I needed advice you were there  
Why did they have to go and take your life, it isn't fair  
Now I feel like part of me is gone  
But your memory lives on  
Through the lyrics of this song  
And its wrong the way you had to go  
Loneliness is now the only friend I know  
They say I think about it to much, I just think I have to let it go  
But ever since you went away, it's hard to make it on my own own  
I hear a [?] despise the stress  
But a palm me I learned to utilize

The many things you taught me  
I've learned to forgive and learned to love  
When I think of you I know you smiling from above  
I remember when we used to ditch school  
Cause our teacher said it something we would never get through  
We was gone they never caught us in class today  
And the sad thing is that neither of us got to graduate  
Man I miss you I'm just trying to survive oh what I'd do to have you come ba  
ck to alive  
This might sound selfish but I want you back home cause I need you  
But you in a better place and we get to meet soon  
I want you back home cause I need you  
But you in a better place and we gonna meet soon

Every day that I see the sunshine up in the sky  
You running through my mind  
And I'm wondering why, why  
Why the devil didn't take me life  
Why the devil didn't take me life  
Every day that I see the sunshine up in the sky  
You running through my mind  
And I'm wondering why, why  
Why the devil didn't take my life  
Why the devil didn't take my life, life
