

Like A Drug

Phora

Shawty like a drug, 'cause she gets me high
Got me in the clouds, floating in the sky
Think I fell in love when she passed me by
We can take it slow, I could take my time
Shawty like a drug, 'cause she gets me high
Got me in the clouds, floating in the sky
Think I fell in love when she passed me by
We could take it slow, I could take my time

Yeah, I just don't know what to say lately, yeah
I've been trying not to hold back, aye
All this stress on my back
I been drinking everyday lately, yeah
I got too much on my mind
But I've been trying to make you mine
(Aye, yeah)
Really I think she was made for me
Got my back, she know she safe with me
Really I think she the type of girl that helped me
Be the type of man that I was made to be
She ain't switch up like the others do
She the one I'm always running to
She can see the fake smiles
And the faces of the people that I run into
She been the one, straight from the jump
I ain't see it come
Yeah she take me on a natural high
I ain't never plan on being in love but I guess
Sometimes things just happen
We might not know why
But she my favorite drug
Cause she still gets me high
Sometimes things just happen
We might not know why
But she my favorite drug
Cause she still gets me high

Shawty like a drug, 'cause she gets me high
Got me in the clouds, floating in the sky
Think I fell in love when she passed me by
We could take it slow, I could take my time
Shawty like a drug, 'cause she gets me high
Got me in the clouds, floatin in the sky
Think I fell in love when she passed me by
We could take it slow, I could take my time
