

Loaded Gun

Phora

Yeah, uh
I mean

I've been hurt by you too many times
So I keep you in my heart and not my life
And you've been broken, your heart's just like mine
So we both pretend that everything is fine

I was so lonely inside
'Cause you led me and you broke me down and left me to die
Now I know the reason why, I
I feel so empty, all you did was kill me inside

But I'm runnin' in circles with you
I'm not the only one
Who knew that love was deadly?
You're like a loaded gun
Runnin' in circles with you
I'm not the only one
Who knew that love was deadly?
You're like a loaded gun

I try to forgive you for the things that you did wrong
But how do you say goodbye when you're still holdin' on?
I try to love you
I try to trust you
But you were the one who left me empty, all alone

I was so lonely inside
'Cause you led me and you broke me down and left me to die
Now I know the reason why, I
I feel so empty, all you did was kill me inside

But I'm runnin' in circles with you
I'm not the only one
Who knew that love was deadly?
You're like a loaded gun
Runnin' in circles with you
I'm not the only one
Who knew that love was deadly?
You're like a loaded gun

Lonely inside, I'm so lonely
Lonely inside, I'm so lonely
Lonely inside, I'm so lonely
Lonely inside, I'm so lonely
