

## Night Owls

Phora

Where all my smokers at?  
Light one up and take a hit  
Inhale the smoke and before you blow it out  
Just know that you the shit  
Just know you got yourself back up  
Each time you fell, everytime you slipped  
Cause all I know is this, the only way you fail is if you quit  
So fuck your fancy cars, cause dawg we dying out here  
We just sheep in a pack of fucking wolves and lions out here  
And the system got us fucked up and the media still lying out here  
It's like we was born without a chance, but we still trying out here

I'm back home again, back up in my zone again  
This music's all I got, these feelings inside, I just can't hold em in  
So I'm back in the motherfucking lab with a pen and a pad  
And my niggas, they feeling it  
All my niggas is smokers dawg  
I'm just high cause the room is filled with it  
I'm feeling it, up on cloud 9 like I'm too real to quit  
Mama raised a fucking man so all this pain, nigga I'm built for this  
Yours truly taking over, you don't like it? You gon deal with it  
Anthro beats is killing it, Eskupe man he's killing it  
This industry's filled with pricks that tell kids to go pop pills in this  
So hard to knot your anger when your entire heart's been filled with it  
No mercy for the ones that called our sons niggas and childerns spicks  
Fuck your code of silence, cause for way too long I've sealed my lips  
I killed for you, killed for moms, I killed for the crew, I killed for this  
Don't make me catch a body, I ain't devour  
I will fill a clip and pull the trigger so motherfucking quick that you won't hear the click  
And take your team out one by one till no one knows you still exist  
Tell these haters I said fuck em, tell Fox News I said fuck em  
My whole fucking city got my back, ain't backing down for nothing  
Bitch I'm coming, yeah bitch I'm coming
