

Romeo

Phora

She Bonnie but I'm not Clyde
I'm more like the guy on the side
She delete my text at night
'Cause she said he gon keep you in sight
If you don't wanna love me for long, baby girl leave me alone
I told you house ain't a home
I don't drink I'd be acting a fool
When I smoke I don't pass it to you

Who are you with when you're not with me?
Where are your lips when you're not kissing me?
It's like when I talk you don't listen to me
Since school started you're distant from me
I guess I'll go 'til you come my way
Then you make me fold
Hopeless, he goes
Pobrecito
Get to Capulet
I'm your Romeo

Yeah, last night you got wasted
Know you do it all for attention
You don't want me on your timeline
And, I don't want you in my mentions, yeah
You act like your shit smells like roses
You always put me second
Now, off the Hennessy acting a fool, realize I'll never be happy with you
I just can't be happy with you, fuck
Done with your arguments, I'm done with you selfish ways
Done trying to argue with you, that doesn't get me paid
Don't come back when you're lonely
Don't come back running to me

Who are you with when you're not with me?
Where are your lips when you're not kissing me?
It's like when I talk you don't listen to me
Since school started you're distant from me
I guess I'll go 'til you come my way
Then you make me fold
Hopeless, he goes
Pobrecito
Get to Capulet
I'm your Romeo
