

Snakes

Phora

Yeah, look
This for all the times that they flexed on me
All the times that they flexed on me
All the times they wished death on me
I should ride around with a TEC on me
Ride around with a vest on me
Ride around with a Lex on me
Ride around with' your new girl and your ex girl right next to me
Riding 'round through my old hood, but I'm still with my day ones
Hennessey in my cup now, stay down and we came up
Had a couple niggas switch on me
Had a couple niggas change up (had a couple niggas change up)
Yeah, had a couple niggas
Look, fuck it though 'cause we coming up
Whole city want to fuck with us
Funny how it's the runner-up always talking 'bout they gon' be running up
I don't need no co-signs, do the talking on your own time
My verses like sixteen xannies chopped up, that's a dope line
That's a dope line, yeah
Why y'all so dramatic?
I've been on the car stati
If they want it, let 'em have it, yeah
If they want it, let 'em have it
Your city don't fuck witchu
Your whole squad don't fuck witchu
I just turned twenty-two and there's no telling what I'm going to do

Yo, what's the deal? You ain't really who you say, let's keep it real
How you feel? I could never fuck witchu, that's how I feel
On the real, I've been watching for the snakes up in the field
What's the deal? Y'all can't fuck with this
Y'all can't fuck with this (y'all can't fuck with this, look)

What's the deal? You ain't really who you say, let's keep it real
How you feel? I could never fuck witchu, that's how I feel
On the real, I've been watching for the snakes up in the field
What's the deal? Y'all can't fuck with this
Y'all can't fuck with this (y'all can't fuck with this, look)

Ayy, Yours Truly on the clothes now
Nigga, selling out shows now
I remember I was stuck on the side of the road, car broke down
Wasn't picking up the phone then
So, why you calling my phone now?
You need a favor for your bro now?
Oh, you need a feature on the low now?
Real fans and I love 'em all, type of fans that never fuck with y'all
Y'all here for a couple years, I'll be here even when I'm gone
Heard you spent your advance money on a watch and some Vans, homie
I pushed so many diamonds on Dezzy, she ran out of hands for me
Plane flights on plane flights, I've been working like day and night
Your squad go to sleep early, my squad working late nights
My squad got the same dreams
Getting new money with the same team
Ayy, hold up
Fuck 'em all, I'ma do me

Yo, what's the deal? You ain't really who you say, let's keep it real
How you feel? I could never fuck witchu, that's how I feel
On the real, I've been watching for the snakes up in the field
What's the deal? Y'all can't fuck with this
Y'all can't fuck with this (y'all can't fuck with this, look)
