Phora

I got you stuck off the realness
Tell me if you feel this
Schooling niggas up I'm bout to take em on a field trip
Only drop that real shit that rhymin that ill shit
Straight from California where you can get hit real quick
And I don't really feel shit if these niggers dropping
Need to step your bars up and cut back on the talking
Summer time in the city my niggas is steady mobbing
From Anaheim to the valley and 909 up to Compton

What we reppin'
(Yours truly)

Shit my life is like a roller coaster
But I'm never gonna stop until the show is over
Steady west coasting
Fresh coasting
Reppin' California from San Diego to west Oakland
Chest open
Inhale the fresh smoke in
Just relax kick back left coasting
I grew up on tupac never shot a new glock
We much rather take it to the back and straight boobop
Bling blow
But niggers can't touch me I'm the king now
And back then I never ever woulda dreamed how
Crazy this life would be but I guess we get to see now
Packed out venues to watch us do our thing now
From Las Vegas to Rino back to Los Angeles
I keep my circle small so I never deal with the scandalous
But yo on the real I just wanna thank y'all that was with us from the start
you forever in my heart
Yours truly

They always try to shut our dreams down
Said we never get this far
They always try to shut our dreams down
Said we never get this far
What the fuck they saying now
Y'all ain't saying nothin bitch!

Nah they ain't got nothin to tell us if they ain't fucking with us probably
cuz they dumb and they jealous
We on a trip across the country headed straight for your city see that line
around the corner see my name on the titties
Homie I'm getting it

We young niggers we just misunderstood
But yo I really think they get it now
Watch how I spit it now
Shaitown and Cali yours truly only fitted now
The fuck is up got the crowd jumping like its double dutch
But I remember back in the days they don't wanna fuck with us
We figured out we don't need a label we don't need a deal
All we need is love from the fans and they always keep it real
We just some young kids from the bottom
All we had was a vision and empty pockets so we plottin' a mission

And we never let em shoot our dreams down so we had to get it
And you can do it true don't ever lettem tell you different

They always try to shut our dreams down
Said we never get this far
They always try to shut our dreams down
Said we never get this far
What the fuck they saying now
Y'all ain't saying nothin bitch!
