

# Summer Nights

Phora

It's so beautiful outside  
And it's about that time baby  
Let's go!  
I mean, it's just so funny man  
They said we could never do it, right?  
Y'all said this was impossible, right?  
Well, look where we're at now  
Look what we're doing man  
We're just some young niggas coming up from the bottom  
It's about time to let y'all know

I said we styling on niggas, wilding on niggas  
Fright as I hit the block I'm steady clowning on niggas  
You know, it's all love on this side of the city  
So pour another cup, bump this shit, and ride to my city  
I mean, we all love them summer nights, everybody loving life  
Text message to my phone saying, "P you coming, right?"  
Yeah you know I got to bro, I'll be there in 20  
I slip my dirty ass chucks on and I'm feeling so lucky  
I'm glad to be alive, many of us don't survive  
Growing up in California, ups and downs, enjoy the ride  
Life is like a movie to me, she said she love me, I said, "Prove it to me"  
Trying to hit the liquor store I told the bus can you wait for me  
I've been working so hard I just might pop some champagne  
Break my last dollar with the team it ain't a damn thing  
And honestly, I couldn't tell you where we headed  
But I could tell you one thing you won't ever regret it  
What's up?

Light that spliff and roll up, if you from California  
City lights and palm trees, don't talk just bang this song, please  
Light that spliff and roll up, if you from California  
City lights and palm trees

Check, uh  
And yo they love me and my city I'll break bread with my folks  
They know exactly where I'm from, I stay reppin' the coast  
Dubs up!  
Keep the Jager pourin', lovin' when the Lakers scorin'  
Ladies, everywhere you go I just hope you ain't paying for it  
Rolling with the windows down, system up all the way  
Keep the Mickey's coming, homie. Not a change  
Just a day in the life of a kid from Cali who's trying to live it right  
Same team, same city, same time, different night  
So, roll it up and take a puff for the kid  
And if you ever see me rolling say "What's up" to the kid  
You know, I showed love back to my peeps no matter where you're from  
And as soon as my album drop they all gon' fuck with the kid  
But for now, I'm just with the fam keeping it humble  
Cali nights can get crazy, it's hard to keep out of trouble  
Yeah but we ain't got no worries. Ain't nobody trying to fight  
We just watching the sunset on this warm, summer night  
Yours truly

Light that spliff and roll up, if you from California  
City lights and palm trees, don't talk just bang this song, please  
Light that spliff and roll up, if you from California

City lights and palm trees
