

Any Old Miracle

Phosphorescent

I know it's late, and I sure do hate to bother you
But you know you're the only one
Who knows what I've been goin' through

It's her, keepin' me up all night again
So I just had to call on you
To ask a favor of a friend

Any ol' miracle
There's no need to send it around
Take a little bit of extra trouble Lord
Be sure you send the right one down
'Cause if I have to get over her
I'll need some help from you
Please send me that one miracle
Any ol' miracle will do

Oh Lord, I know so many others stand and need
You've got troubles to attend to
And you've got hungry mouths to feed

But listen to me, Lord
I don't mean to take too much of your time
Just send me a one miracle
To heal this heart of mine

Any ol' miracle
There's no need to send it around
Take a little bit of extra trouble Lord
Be sure you send the right one down
'Cause if I have to get over her
I'll need some help from you
Just send me that one miracle
Any ol' miracle will do

Any ol' miracle
There's no need to send it around
Take a little bit of extra trouble Lord
Be sure you send the right one down
'Cause if I have to get over her
I'll need some help from you
Please send that special miracle
Any ol' miracle will do
