

When We Fall

Phosphorescent

The sky tonight at sundown looked like god himself
Feeding diamonds to his horses made of gold
And the secret here you know is that I love you so
But I don't want your heart to know

These darkened city sidewalks get so cold I know
When you're walking and you've got no one at all
But I saw holes beside my feet and they've got lights beneath t
he street
So as not to stumble into darkness when we fall

I found that just behind the speakers you can hold the song
And then live inside there never all alone
Would you really call me home just to break my bones
Would you really not forgive me when I go

The sky tonight at sundown looked like god himself
Feeding diamonds to his horses made of gold
And the secret here you know is that I love you so
But I don't want your heart to know
