

# Long Gone

Phum Viphurit

Hold on loose, don't grip me so tight  
I've got no wings to fly but this spirit's taking flight  
So tonight, we'll dance, let's pretend we rule this town  
In tomorrow's dawn, I'll be long gone  
Long gone, long gone

I'll be long gone  
I'll be long gone

Don't hold me loose, please grip me tight  
My lungs are paper dry, from fear of losing sight  
Take my palms, we'll build a wall around this town  
In tomorrow's dawn, you'll be long gone  
Long gone, long gone

You'll be long gone  
You'll be long gone  
I'll be long gone  
I'll be long gone  
You'll be long gone  
You'll be long gone  
I'll be long gone
