

Pills

Phum Viphurit

How many pills you've swallowed
How many do you need
How many till they start working
How many till you see

I don't think this is healthy
I don't think this will set you free
I don't think you're getting better
So how many till you see

I know you've been hurt in this walk of life
So let me find my shoes and I will walk with you
I know you feel alone sometimes
So I'll take your hand and hold it tight and I'll follow you

I know you've been hurt in this walk of life
So let me find my shoes and I will walk with you
I know you feel alone sometimes
So I'll take your hand and hold it tight and I'll follow you

We can get strong together
Just take some time to breath
Spend days with you "forever"
So how many till you see
So how many till you see
So how many till you see
