Run

Phum Viphurit

You've been camping all over my mind
Diggin' for purple matter
Feeding your fire

And I've been hanging about on cloud-nine
Sippin' on ageing fine wine
Can't get me higher

Pull me out, just to push me in
You're up till dawn
Tryin' to move on
Lovers gone wrong
Let go, it hurts, I know
It's time to run
Moonrise Kingdom
Just bury your worries and sing!

Oh-oh-oh...

We've been walking around in circles
Fighting our endless battles
But really, who cares?

Pull me out, just to push me in, again

Life gets rough
Just don't keep the world on your shoulders

You're up till dawn
Tryin' to move on
Lovers gone wrong
Let go, it hurts, I know
It's time to run
Moonrise Kingdom
Just bury your worries and sing!

Oh-oh-oh...

Pull me out, just to push me in
You're up till dawn
Tryin' to move on
Lovers gone wrong
Let go, it hurts, I know
It's time to run
Moonrise Kingdom
Just bury your worries and sing along!
