

Be Careful

Phyllis Hyman

Be careful how you treat my love
Don't you know good love is hard to find
Be careful how you use my love
Just be kind to this heart of mine

Darling, you've been careless
For the past few months
It's time you realized
How much you stand to lose

Love don't grow on trees
You should have learned by now
Once you find real love
Never, never let it go

Be careful how you treat my love
Don't you know good love is hard to find
Be careful how you use my love
Just be kind to this heart of mine

My love is strong and true
I've given it all to you
Don't be foolish now and throw it away
What I'm trying to say
Let's be more aware of this thing we've got
This love we have

Be careful how you treat my love
Don't you know good love is hard to find
Be careful how you use my love
Just be kind to this heart of mind

Be careful how you treat my love
Don't you know good love is hard to find
Be careful how you use my love
Just be kind to this heart of mind

You better be careful how you treat my love
You know good love is hard to find
Be careful how you use my love
Careful

Be careful how you treat my love
I'm telling you, I'm telling you
Come on be careful, won't you now?
Be careful how you treat my love
