

Give A Little More

Phyllis Hyman

Is it something that is real
Or is it what I feel inside
Is this just a magic spell
Only you and I can tell, so well
I've been feeling so confused
Or could it be that I've been used
We've been trying for so long
Tell me where our love went wrong

Give a little more and don't forget
Give a little more, you won't regret
Our love
Give a little more and don't forget
Give a little more, you won't regret
Our love

Empty hearts will bring you pain
Loneliness is what you gain, uh uh
We've been looking for what's right
I think I've found the answer, tonight
Once we wrote a sweet love song
It made our lives so very strong
But now we're singing out of key
It took so long for us to see, whoa whoa

Give a little more and don't forget
Give a little more, you won't regret
Our love
Give a little more and don't forget
Give a little more, you won't regret
Our love

Once we wrote a sweet love song
It made our lives so very strong
But now we're singing out of key
It took so long for us to see, whoa whoa

Give a little more and don't forget
Give a little more, you won't regret
Our love
Give a little more and don't forget
Give a little more, you won't regret
Our love
