

I Found Love

Phyllis Hyman

I've heard it said all across the universe
Just seek and ye shall find
I started out on a long and lonely search
For the love that's in your eyes
All roads were leading here to you
My love
My destiny was you

Oh I
I found love
When I looked into your eyes
There it was
Oh I
I found love
When I looked into your eyes
There it was

Tears of joy for the happiness you bring
For making sense out of my life
For appearing just when I was losing faith
For making all the wrongs seem right
All roads were leading here to you
My love
My destiny was you

Oh I
I found love
When I looked into your eyes
There it was
Oh I
I found love
When I looked into your eyes
There it was

Lost in the dark
(Ooh I was losing)
(Losing my way)
So glad I found you
Who would ever have believed me
I'd see this day
You came (You came)
In time (In time)
Now love is mine

Oh ho I
I found love
When I looked into your eyes
There it was
Oh ho I
I found love
When I looked into eyes
There it was
(I-I-I-I-I-I)
Ooh you know
Hoo I found love
When I looked into your eyes
There it was

Thank you for making sense out of my life
For making all the wrongs seem right
Oh ho I
I found love
