

Fall All Over Again

Pia Toscano

Dooo doo doooooo

I see the glow of Christmas in your eyes
Sweet mistletoe surprise, you've got in mind for me
I feel the warmth of your embrace
Your hands upon my face
Reminds me of when we fell in love
And it takes us back to the night of our first kiss
We both felt that spark begin
Baby, for this Christmas, let's fall all over again

Oooooooh

Let's light the fire, pour some champagne
We'll toast the holiday, I'm sure the spirits will agree
We'll play our song and slowly dance
'Tis the season for romance
We're in rhythm like we used to be
And let's go back to the night of our first kiss
We'll relight that spark and then
Baby, for this Christmas, let's fall all over

Again... whenever things get tough and we feel so far apart
Oooh, let's take that path and find the way back to our heart

So let's go back to that night of our first kiss
We'll relight that spark and then
Baby, for this Christmas
Oooh darling, for this Christmas
Oooh baby, for this Christmas

Let's fall all over again

Oooooooh
