

# Labor Of Love

Pia Toscano

Who knew  
That a table set for two  
Could make a girl feel so damn alone  
I'm twisted  
My heart is torn in two  
And you're not even answering your phone

But it's not about you (not about you)  
Cause we are two (cause we are two)  
It's about us  
Together we lost the light  
So tell me what we gonna do (what we gonna do)  
Gotta get through (gotta get through)  
Break the walls  
We gotta fight

When water falls like rain  
And you're drowning in the pain  
I'll save your life  
(I wanna count the stars with you)  
And I just can't hold back  
Cause chemicals react  
With you and I  
You and I  
You're my labor of love  
You're my labor of love  
You're my  
My labor of love

Help me  
You're close but I can't reach  
Guess I gotta walk the tightrope  
Cause the war inside is raging  
And baby we were so amazing  
We can't let it die

So tell me what we gonna do (what we gonna do)  
Gotta get through (gotta get through)  
Break the walls  
We gotta fight

When water falls like rain  
And you're drowning in the pain  
I'll save your life  
(I wanna count the stars with you)  
And I just can't hold back  
Cause chemicals react  
With you and I  
You and I  
You're my labor of love  
You're my labor of love  
You're my  
My labor of love

I've been here battling bullets  
Because you were always the top gun  
You left me bleeding for hours

But you gave me power  
I won't run, no

When water falls like rain  
And you're drowning in the pain  
I'll save your life  
(I wanna count the stars with you)  
And I just can't hold back  
Cause chemicals react  
With you and I  
You and I  
You're my labor of love  
You're my labor of love  
You're my labor of love  
You're my labor of love  
You're my  
My labor of love
