Pia Toscano

I take the long way home every night just to drive
I imagine you by my side for the ride

I feel your heart beat right through your clothes
Every intention finally exposed
I feel the flame, can you smell the smoke?
Feels like I'm 'bout to explode

It's the way you light me up, baby
Me up, baby, light me up, baby
Come and burn me with your touch, baby
Your touch, baby
I'm tryin' to start a fire with ya
I'm tryin' to start a fire with ya
I'm tryin' to start a fire with ya

Safe to say you're my favorite sin in the end
So let's throw all of our caution in the wind

I feel your heart beat right through your clothes
Every intention finally exposed
I feel the flame, can you smell the smoke?
Feels like I'm 'bout to explode

It's the way you light me up, baby
Me up, baby, light me up, baby
Come and burn me with your touch, baby
Your touch, baby
I'm tryin' to start a fire with ya
I'm tryin' to start a fire with ya
I'm tryin' to start a fire

As long as you hold me, we're forever young
Body to body, we'll burn like the sun

It's the way you light me up, baby
Me up, baby, light me up, baby
Come and burn me with your touch, baby
Your touch, baby
I'm tryin' to start a fire with ya
I'm tryin' to start a fire with ya
I'm tryin' to start a fire
